PRO. SKILLS

- Critical Thinking
- Conflict Resolution
- Attention to Detail
- Learning Agility
- Communication
- Problem Solving
- Time Management
- Creativity
- Emotional Intelligence

EDUCATION

Graduation

BS Computer Science

Institute of Southern Punjab (ISP)

Sep. 2020 - Jul. 2024

LANGUAGES

- Urdu
- English

PROFILE SUMMARY

Motivated and ambitious Computer Science graduate seeking a software development position to apply my technical skills and continue expanding my expertise. Proficient in front-end technologies, with a strong foundation in programming, problem-solving abilities, and a passion for building innovative solutions. Eager to contribute to a dynamic team environment and add value through dedication, creativity, and a collaborative mindset.

CORE COMPETENCIES

- Enthusiastic and passionate about presenting ideas effectively and staying updated with management trends and practices.
- Demonstrates a strong presence of mind, creative thinking, and a problem-solving orientation in all aspects of work.
- Skilled in developing both print and digital marketing materials, including brochures, catalogs, advertisements, and other promotional content.

PERSONAL PROJECTS

Sensing Place and Predict Direction to Go (FYP)

Developed a prototype car model capable of receiving location data via GSM and using sensors to guide users to their destination. The project predicts optimal directions based on real-time location data and sensor feedback, enabling precise navigation.

PROGRAMMING SKILLS

- **Programming Languages:** JavaScript, C++ (Basics)
- **Front-end Frameworks:** React JS
- **Tools:** HTML5, CSS, Tailwind CSS
- **Development Tools:** Visual Studio Code, Sublime Text, Dev C++, Arduino IDE

CAREER OBJECTIVE

Motivated Computer Science graduate seeking an internship to enhance software development skills and contribute to innovative projects in a dynamic team environment.
